SUMMARY

Front-End Developer with hands-on experience building production-ready web applications using React, Next.js, and TypeScript. Delivered 5+ projects spanning e-commerce, social networking, and media platforms. Skilled in component-driven architecture, state management (Redux Toolkit, React Query), and responsive UI with Tailwind CSS.

EDUCATION

Bachelor of Science, Computer Science 2024
MET Academy, Mansoura

TECHNICAL SKILLS

Languages

JavaScript (ES6+), TypeScript, HTML5, CSS3

Styling

Tailwind CSS, Sass, Bootstrap, Material UI (MUI), DaisyUI

Concepts

REST APIs, SSR, CSR, Component Architecture, Responsive Design, State Management

Frameworks

React, Next.js, Redux Toolkit, React Query (TanStack Query)

Tools & Libs

Git, GitHub, Axios, React Hook Form, Firebase Auth, React Router

CERTIFICATIONS & COURSES

React: The Complete Guide (incl. Next.js, Redux) 2026
Udemy / Academind

Software Development — React Frontend Web Developer 2026
Digital Egypt Pioneers Initiative (DEPI)

Front-End Development Diploma (React) 2025
Route Academy

PROJECTS

LUMIERE — Skincare Platform

React | TypeScript | Tailwind CSS | React Query | Context API | Axios | React Router v7

- Built a full-featured skincare SPA with personalized skin-type survey and dynamic product recommendation engine
 - Implemented multi-step checkout flow, shopping cart, and real-time order tracking, delivering an end-to-end shopping experience
 - Architected global state with Context API, eliminating prop-drilling across 10+ nested component layers
- Github [🔗](#), Demo [🔗](#)

Buyno — E-Commerce Platform

React | TypeScript | TanStack Query | React Hook Form | Tailwind CSS | Axios

- Developed a complete e-commerce application with product listing, filtering, cart management, and secure checkout
 - Integrated TanStack Query for server-state caching, reducing redundant API calls and improving load performance
 - Built validated form components with React Hook Form for login, registration, and checkout workflows
- Github [🔗](#), Demo [🔗](#)

NewsNow — News Platform

Next.js | TypeScript | Tailwind CSS | Firebase Cloud Messaging

- Built a modern news platform with category-based browsing, keyword search, and dynamic article pages powered by NewsData API.
- Implemented Firebase Cloud Messaging (FCM) for real-time push notifications, keeping users updated with the latest headlines.
- Developed a responsive UI with light, dark, and system themes, optimized for seamless navigation across desktop and mobile devices.
- Leveraged Next.js App Router with server-side rendering and dynamic routing to improve performance and user experience.

SoicoHub — Social Network Application

Next.js | TypeScript | MUI | React Hook Form | Axios | Day.js | JS-Cookie

- Designed and shipped a social platform supporting user authentication, post creation, commenting, and profile management
- Leveraged Next.js SSR for faster initial page loads and improved SEO across public-facing profile pages
- Implemented persistent auth sessions with JS-Cookie to maintain user state across page refreshes and navigation

CMDB — Movies & TV Browser

React | TypeScript | Redux Toolkit | Firebase Authentication | Axios

- Built a movie and TV show discovery application with search, filtering by genre, and detailed media information pages
- Integrated Firebase Authentication for secure user login, registration, and protected route access
- Managed complex application state with Redux Toolkit, keeping UI consistent across multiple interconnected views
